

WOODCHIPS

Sawdust & Woodchips Woodworking Association
www.sawdustwoodchips.org

March 2016
Volume 25, Issue 3

THIS MONTH'S EVENT!

Members and guests of the Sawdust & Woodchips Woodworking Association will meet on Wednesday evening, **March 9th** for their next monthly meeting. The meeting is one week later than normal because of a conflict at the fire station where we meet. The topic for the evening will be the status of the American chestnut tree and efforts to reintroduce the tree (or a blight resistant one) into our forests. The March speaker for the evening will be **Andy Newhouse**. Andy is a member of the American Chestnut Foundation as well as a PhD candidate at SUNY Environmental Science and Forestry. The last time someone from the foundation spoke to our group was June of 2000. For those not aware of the American chestnut situation, Andy will give us a general background and the problem with chestnut blight. He will then talk about research undertaken to create a blight resistant American chestnut. There is exciting news on this front!

As usual, you are welcome to bring others who might be interested in hearing our evening's topic – just be sure to sign them in! Plan to attend this meeting! Don't forget the meeting is held at the **Community Room** of the **Belgium Cold Springs Fire Department's Station 1** at **7920 River Road**, Baldwinsville.

In addition to our program, this meeting is a great time for you to process your membership renewal. We still have 51 people who have yet to renew and we hope that all will do so. **Mark Baumes**, our treasurer, will be taking your renewals starting at 5:30pm. Please try to complete your membership renewal at this time as this is the last newsletter sent to all 2015 who've not renewed.

After our short business meeting and before the break we will also have our usual **Show & Tell** session. This part of our meeting is always fun, educational, and eye-opening as members and guests show off their latest projects. Each month we have some great participation in this portion of the meeting, much of it instructive to attendees. Be sure to sign-in and give a brief description of your project. Also, at the meeting we will complete our tool raffle, drawing the winner of the Dewalt 20V Drill Driver as well as hold our monthly 50/50 raffle.

We hope you will join us at the meeting!. See you on **Wednesday, March 9th at the Belgium Cold Springs Fire Station 1 Community Room**. Remember, **Don Vanderveer**, our new Mr. Hospitality, will welcome any

WILL THE AMERICAN CHESTNUT TREE RETURN?

with Andy Newhouse

The American Chestnut Foundation

Reminder: Meeting starts at 6:30pm and is held at the Belgium Cold Springs Fire Station 1 Community Room, 7920 River Road, just southeast of Baldwinsville. Directions are on the back page and on the website.

snacks you are willing to bring and any help you are willing to give!

A LITTLE HISTORY ... The American chestnut tree was one of the predominant species of trees that filled our forests for many years. The trees grew so large and sturdy that the wood was often used for beams, foundations, and railroad ties. Then, around 1900, the chestnut blight happened. Now the American chestnut, a tree in the beech family, is hard to find and any lumber in the marketplace is valuable.

One should not confuse the American chestnut with what some call the horse chestnut. The horse chestnut tree is a different species and could also be known to you as the buckeye tree.

LEARN MORE AT THE MARCH 9TH MEETING!✂

PRESIDENT'S CORNER

What a difference a week will make! Our usual meeting night, March 2nd, was unavailable because of a dinner and meeting at the firehouse. Looking out one week – what a difference it will be in weather. March 2nd was snowy and windy most of the day. Looking at the forecast for March 9th, it appears that the weather will be much better – a high of 65 degrees and mostly sunny! I think we will have a better day and more folks will be able to attend the meeting! The rescheduling worked out just fine!

What's going on in your shop? Ours is busy in the turning corner. It is a rare night that the lathe is not running until at least 11 at night. The lineup of bowls is interesting! My corner is not as busy as I've been working on the Pancake Breakfast for the firehouse, but I expect to have some time coming up to finish up some projects.

For those interested, the fire department's annual Pancake Breakfast is Palm Sunday, March 20th. We serve from 7am to 1pm. The cost is \$8 per person, \$7 per senior, and \$5 for children 3-10. We serve pancakes (of course), scrambled eggs, home fries, bacon, ham, & sausage plus drinks. The guys are great cooks so consider adding it to your Palm Sunday event schedule.

Charlie takes a daily walk out in the back area almost daily. While out recently, he found out what trees do in the woods while they are alone. Here's photo proof!

Too funny! These are shagbark hickories that form a line across the back. The wild grape vines don't seem to grow on them like they do on everything else. They are great nut producers for the squirrels.

Well it's time to close but ... Keep on creating!

Barbara ✂

RAFFLE RESULTS

The winner of the February meeting 50/50 raffle of \$45 was **Steve Flood**. Congratulations Steve! ✂

NEW MEMBERS & VISITORS

It's renewal time and also time to join if you've visited previously. Renewals for 2016 are up over past years with 132 members as of 2/26 and just 51 members who have yet to renew. We welcome two new members – **Paul Gundrum** of Watertown and **Anthony Stancato** of Utica. We had twelve registered visitors at the February

meeting: **John & Mary Lou Anagnost** of Manlius, **Daniel Anderson** of Watertown, **Mike Brant** of Oneida, **Tom & Alan Cook** of Liverpool, **Bill Hayes** of Baldwinsville, **Larry Larrabee** of Elbridge, **Virginia Merriam** of Clay, **Roger Paolini** of Brewerton, **Frank Perkins** of Sterling, and **Matt Stewart** of Syracuse. We are glad you all joined us. Feel free to return and please consider joining. If you know of someone who is interested in the club and should receive a newsletter, please notify Barbara. ✂

MEMBERSHIP INFORMATION

SWWA's membership runs the calendar year. We ended the year with 175 members, 26 of which were new for 2015 and several of whom automatically crossed over into their 2016 membership. 132 members are renewed for 2016 and we hope you will process your renewal soon.

We know that everyone hates to complete the membership form so Stan developed a way to pre-complete your form with information we currently have on file. We have a form for each member. At the meeting you can retrieve your form, verify the information (including your email address) is correct, and pay with a check (made payable to SWWA) or cash. If you didn't get your form, please let Barbara know so your form can be sent as an email attachment or use the one inside this newsletter.

Renewals are \$25 for singles and \$35 for couples.

We understand that in many cases nothing changes, but we like to verify that the membership database contains accurate information. Also, we must have a signed liability statement completed each year to financially protect the SWWA membership. It is not enough just to send a check; we need the completed and signed form as well. Send all renewals to our new treasurer: SWWA, % Mark Baumes, 169 Edgehill Road, Syracuse, NY 13224. Do not send cash. ✂

OUR FEBRUARY MEETING RECAP

On Wednesday, February 3rd approximately 90 members and guests of the Sawdust & Woodchips Woodworking Association met in the Community Room at the Belgium Cold Springs Fire Station One. Our speaker **Tim Wimmer** discussed the making of Adirondack Pack Baskets as he learned from **Dudley Fraser**. Tim used a selection of

photos combined with artifacts, some of which were used by Dudley. Tim was one of very few who were taught by Dudley. While he doesn't currently make the baskets, he noted that putting together this presentation refreshed his desire to make the baskets again. Thank you Tim for a wonderful presentation! I know that everyone loved it!

TIM WIMMER ON THE ADIRONDACK PACK BASKET

There's snow in the forecasts now so we must issue this policy.

Whenever driving in weather – even rain – please be careful!

WEATHER CANCELLATION POLICY

It is very unusual that SWWA meetings are cancelled due to weather. However, should the weather be questionable, a decision to adjust the date will be made by noon on the day of the meeting. **All notifications will be made via email.** Phone calls will be made only to the few who receive their newsletter via the USPS. We will try to place notifications on local TV media also. If there is a question, please call Barbara, Charlie, or a member of the Board (*page 2*).

February Meeting Recap, page 2

Prior to Tim's excellent presentation, we had our *Show & Tell* session. Just five members presented projects.

Jon Haney showed a hickory bow saw he recently made. Jon wanted the saw so he could cut corners on various projects. He used design documents and purchased the brass pins from [Tools for Working Wood](#). He turned the yew knobs but you could also purchase them.

Bill Noroski showed a scrolled picture of his grandson and his bride in their wedding clothing. His grandson is a crossfit trainer in Tokyo. Bill made two of these as gifts, one for the couple and one for his son.

Jim Sanson showed a spalted maple, walnut, and cherry lidded box he recently completed. He applied an oil finish to show off the wood.

A piece of knotty pine scavenged from **Mike Shuron's** house before he departed for Kentucky was transformed by **Jim Yonkers** into a wonderful carved and painted owl. Jim used the natural features of the wood while creating this unique picture that his wife loves.

Last year, **Charlie LaPrease** received an 80 pound piece of Bradford pear from **Tom Lawlor** from a tree that was at least 20" in diameter, a size that is very unusual for Bradford pear trees. After contemplating how he would turn it, he mounted it on the lathe in early January. He produced multiple bowls from this log, including what he says is be the *world's largest* Bradford pear bowl. He created multiple bowls by coring successive pieces from the center of the large piece.

SHAKER BOX & PLANE MAKING CLASSES MARCH 4-6, 2016 AT LAKESHORE HARDWOODS IN PULASKI

LAST CHANCE

There is still time to register for these classes taught by John Wilson who returns to our area for the 21st year to teach these classes. In the **Shaker Box** class, you make 5 Shaker boxes on Friday evening and Saturday. In the **Plane Making Class** on Sunday you can make a Molding Plane, Shoulder Plane, Scrub Plane, or a Compass Plane. All materials are provided for each class. The price for each class is \$150. To register, contact **Bob Casey** at 263-9228 or via email at woodnutbob@hotmail.com.

SCROLLING INTEREST GROUP MEETING

Meeting Night: Third Wednesday of the Jan. / Mar. / May / Sep. / Nov. at 6:30 pm

Next Meeting: Wednesday, March 16th at the *Belgium Cold Springs Station 1*

Topic: Making a Bowl with a Scroll Saw

Challenge: Some great Show & Tell pieces! Maybe one that has multiple pieces!

Also: Show & Tell & Woodworking Questions Answered

At the February 17th meeting of the Scrolling Interest Group (rescheduled from January), the 15 attendees started with a lively discussion of the *Show & Tell* items, educating newer members on various techniques as the discussion happened. The projects by **Tony Baleno**, **Peter Breese**, **Paul Granger**, **Gene Piasecki**, and **Barbara Raymond-LaPrease** are shown in the pictured below.

Following a break, we began discussing making a bowl using the scroll saw. We covered glue-ups, bowl presses, and angles after reviewing photos of bowls as cut by **Carole Rothman**. Everyone has *homework* – making their own bowl press and 28 degree angle guide. Members who were not able to attend were sent materials the next day with instructions so they can be ready for the March meeting. Everyone is encouraged to participate in the spring challenge – making a bowl! We'll go over the final steps at the March 16th meeting. Please bring your presses, angle guides, and *Show & Tell* items to that meeting! ✂

2016 CUT-OFF CHALLENGE!

At the September 2015 meeting, **John Anderson** brought in a stack of cut-offs and challenged the members to make something with just one or two. Fourteen members paid \$10 per cut-off and agreed to make something with their cut-off, using no added wood.

They could add hinges and such. At the February meeting, six of those fourteen brought in their projects. The money collected was allocated to the top four vote getters after half was put into the club's treasury. The photo below and on page 7 shows the result.

1st Place & \$40 - Terry Dote

A Louis Cube Box
Walnut – 980 pieces including the pieces that make the inserts as shown above – Shellac finish

2nd Place & \$25

Walnut & Maple
Tung Oil Finish

3rd Place & \$15
Jim Ruddock

Hinged What-Not Box
Walnut
Mineral Oil & Wax Finish

L-R – Jeff Nichols, Jason Wrench, Jim Ruddock, Terry Dote, Mark Baumes, Bruce Swift

CUT OFF CHALLENGE

2016 SCHEDULE OF SWWA EVENTS FOR APRIL & MAY

Wednesday, April 6 – Stations of the Club – We will setup 6 or more different stations in the meeting room where one or more experts will provide opportunities for you to learn – hands-on – a particular skill. Our current list includes hand cutting dovetails, sharpening, using a plane, using a scraper, using a scrollsaw, French polishing, using a kreg jig, etc. We need volunteers to man each station. There will be no presentations but rather there will be hands on opportunities! The club will absorb any supply costs.

Wednesday, May 4– Annual Auction & Swap Meet – Start identifying tools and supplies that you don't use for this annual sale. The swap meet starts at 5pm and the auction at 6pm.

Tidbits!

TIDBITS ... THINGS YOU NEED TO KNOW!

NWA SHOWCASE & TOTALLY TURNING - The 25th annual fine woodworking show – *Showcase* – put on by the Northeastern Woodworker's Association (NWA) will be held at the Saratoga Springs City Center on **April 2 -3**. The demonstration schedule can be found at [this link](#). The featured demonstrators are **Garrett Hack** on furniture making & design, **Phil Lowe** on turning & carving flame finials; **Joshua Klein** on furniture restoration, **Jeff Miller** on handtools in the workshop, **Ken Levan** on banjo making, and **Paul Hines** on wood identification.

Concurrently, the turners of NWA will host their annual *Totally Turning* event with **Stuart Batty, Jimmy Clewes, Linda Ferber, Kurt Hertzog, Glen Lucas, Binh Pho, Steve Sinner, Derek Weidman, & Hans Weissflog** as the featured demonstrators.

The event website is <http://www.nwawoodworkingshow.org> ✂

SNACKS – The club provides coffee and purchased snacks for meetings. **Don Vanderveer stepped up to lead the hospitality committee but he can always need help! Please consider stepping up!** Your homemade goodies are always welcome but we welcome every food donation! For those of you who have generously brought food during the past year, we thank you. ✂

MEMBERS WITH ILLNESSES — SWWA is a family and want to make sure we stay in contact with members who are having health issues whether it be replacement or broken bones, illnesses, or whatever. **Phyllis Eckenrode, our Purveyor of Good Cheer**, can't send well wishes along if we don't know about the issues. Please have a family member notify Barbara at barbchas@twcny.rr.com or Phyllis at pleck44@gmail.com. Thanks and stay well! ✂

INTERESTING WEBSITE — Recently, Jim Yonkers notified your editor of an interesting website you may want to check out – **The Barn on White Run**. The website - <http://donsbarn.com/the-barn/> - contains some interesting information including the story of the humble brick (under tools, August 4, 2014). ✂

ANOTHER INTERESTING WEBSITE — Have you ever looked at the **Stumpy Nubs Woodworking Virtual Magazine**? It includes lots of interesting tips, tricks and great ideas as well as plenty of things to think about while the glue dries. The website address is: <http://www.stumpynubs.com/index.html> ✂

On the Road

The Woodworking Show in Somerset, NJ

Wow this winter is flying by! For all the people who stay cooped up for the winter or go south, I think you miss all the woodworking adventures out there. Last month I told you about the trip to Springfield for the woodworking show in January. Since then we've had a meeting as have the turners and the scrollers. It was recently 20 below zero. Do we let that bother us? Nope. Woodworkers are a tough bunch; if you can't do anything outside there is always woodworking to do!

On February 19th I left my house about 7:45am, stopped at the Byrne Dairy to pick up a snack and headed south on Route 81. I stopped at McDonalds in Lafayette to pick up Peter Oster and off we went to Somerset, NJ for the woodworking show. Some people say it is the same thing at each show; yes, but there is always something different. Plus, the clubs are different. They put on demonstrations and show what they make. There were a lot of clubs there – a marquetry group, a couple of turning groups, a woodworking group, and 1 or 2 scroll saw groups. The day was clear and dry and the ride uneventful. We took one quick rest stop to stretch and were back on our way.

Peter was the navigator and was watching the GPS when we drove by our EXIT, so when it recalculated we got off at the next exit to get back on track. No big deal, but fun to bust on the navigator. We arrived at the show about 12:15; it opened at noon and the parking was way out in left field. I was thinking holy cow long walk but the parking attendant told us a short cut thru the hotel and over, so a nice walk that didn't hurt us a bit.

As many of you know when we get there we all go our separate ways and today was no exception. Last month I told you about the falling block cutting board at Carter products. Yep, I watched him 2 more times at this show and this time took notes. Carter also updated their magnetic band saw fence but I could not justify buying the

new one until I sold my old one. The original worked great with its 5 earth magnets but it held so good that as I get older it was becoming a challenge to take it off the saw. So I sold the old one and bought the new fence at the show. The new fence has turn buttons which makes it easier to remove!

In between visits to Carter, I picked up a few other things I wanted plus filled my bag with things Phyllis Radford had asked me to pick up for her. I talked to many vendors I know and watched demos at various clubs. I did not see a scroll saw bowl at any of the booths; oh well, their loss. Peter and I met up and agreed it was time to leave. He purchased some things he wanted then got the car so we could head home.

I told you I don't like driving long distances at night so Peter drove us back. It appears the GPS took us an unplanned route so we missed our \$1.47 gas in New Jersey. Alas, we ended up gassing up in Pennsylvania; believe it or not gas is about 10 cents more a gallon there!

We planned to stop at our usual dinner spot north of Scranton. This time, as the navigator, I screwed up, first getting off at Scott rather than HARTFORD, the real stop! Oh well; I put the correct exit in the GPS memory for next year and in we went for dinner.

After dinner we headed back north. I dropped Peter about 9:30 and I was in bed about 10:10. Hopefully this navigator problem can be worked out before next year. Sure wish the rest of the regular crew joined us as they were missed.

Traveling to shows like this breaks up the winter. You don't have to buy anything; you can just look, chat, and listen. So like I said earlier, there is no time to be bored, JUST ENJOY LIFE!!!

Your Traveling Reporter, *Bob Casey*

SHOP TIME: SLICK SOLUTIONS

Do you get burning when you route? Does your wood hang-up on your saw top, sometimes causing burns on your wood?

When was the last time you cleaned your router bits? When was the last time you cleaned your saw top – whether it be your tablesaw, bandsaw, or scrollsaw? After you cleaned your saw top, did you apply a paste wax to it? If you cleaned your router bits, did you apply a blade lubricant to the bit afterwards? Think about it!!!
