

# WOODCHIPS

Sawdust & Woodchips Woodworking Association  
www.sawdustwoodchips.org

March 2017  
Volume 26, Issue 3

## THIS MONTH'S EVENT!

The March 1<sup>st</sup> meeting of the Sawdust & Woodchips Woodworking Association will feature **John Witherbee**, our local Windsor chair maker. John will talk about and demonstrate steam bending of wood, a process we haven't explored in many years! Briefly, steam bending is accomplished by heating wood in low-pressure steam to soften the lignin (a glue-like protein that holds the cellulose fibers together). While the wood is still hot, it's clamped into a bending form. As the wood cools, the cellulose fibers contract to conform to the curve, and the lignin cools to hold them in place. John will show his method for bending at the March meeting.

As usual, you are welcome to bring others who might be interested in hearing John – just be sure to sign them in! I hope you will attend this meeting! Don't forget our meetings are held in the **Community Room** at the **Belgium Cold Springs Fire Department's Station 1** at **7920 River Road**, Baldwinsville.

In addition to our program, this meeting is a great time for you to process your membership renewal if you haven't already. Remember that if you haven't renewed by mid-March, you are removed from our rolls and will not receive a newsletter.

After our short business meeting and before the break we will also have our usual **Show & Tell** session. This part of our meeting is always fun, educational, and eye-opening as members and guests show off their latest projects. Each month we have some great participation in this portion of the meeting, much of it instructive to attendees. Be sure to sign-in and give a brief description of your project. Remember, I have challenged EACH member to present at least one piece in **Show & Tell** during 2017. I would remind you that if your latest project is too large to bring to a meeting, a photograph will also work.

We hope you will join us at the meeting!. See you on **Wednesday, March 1<sup>st</sup> at the Belgium Cold Springs Fire Station 1 Community Room.**

Remember, **Don Vanderveer**, our Mr. Hospitality, will welcome any snacks you are willing to bring and any help you are willing to give! ✂

## REVISED SCHEDULE

The meeting schedule was revised when **Dave Eichorn** became ill and could not make it in February. He will be joining us at the April 5<sup>th</sup> meeting! **Bruce Meissner's** session is rescheduled for August! ✂

## Monthly Meeting Information

### Wednesday

### March 1, 2017

# STEAM BENDING

*with John Witherbee  
Windsor Chair Maker  
of Witherbee's Chairs*

**Reminder: Meeting starts at 6:30pm and is held at the Belgium Cold Springs Fire Station 1 Community Room, 7920 River Road, just southeast of Baldwinsville. Directions are on the back page and on the website**

## CLUB CLOTHING

At the request of the Board, **Paul Tennant** had a group of shirts and hats with our club logo at the February meeting for purchase by members. He will have more at the March meeting. The prices are the cost of the item, plus tax and then rounded up to the nearest dollar. If you want colors other than what Paul has, you need to order with Paul. His contact info is (315) 676-3469 [patennant@yahoo.com](mailto:patennant@yahoo.com). ✂

Golf shirt w/pocket – M, L, X, XL	\$21
Golf shirt w/pocket – 2XL or larger	\$23
Baseball Caps	\$12
<i>Other Items? What do you want? Let us Know</i>	

## PRESIDENT'S CORNER

We may have turned the corner on winter! The past few days have been refreshing. My only hope is that we don't have the big warm-ups then freeze so the trees and other vegetation are not affected.

We flipped to plan B for our February meeting when I received an early morning email from Dave Eichorn. For those that joined us expecting to hear Dave, we reset our schedule and he will be at the meeting on April 5<sup>th</sup>.

We use the community room at the firehouse for free because Charlie and I are volunteers there. If you have a desire to give back to the fire department, please consider attending the annual pancake breakfast on Palm Sunday which is Sunday, April 9<sup>th</sup>. We serve from 7am to 1pm. The menu is pancakes (of course!), scrambled eggs, meats, and home fries. The cost is \$8, \$7 for seniors, and children 3-10 \$5. Our next fundraiser is the "hot dog" sale on Saturday, May 13<sup>th</sup> in Radisson.

As I noted last month, we are making a change to our annual auction on May 3<sup>rd</sup>. So, from 5pm till 6:45pm you will have an opportunity to buy tools. From about 7pm until it's done, we will have a wood only auction. We don't know if that will work, but we hope so! If you have wood to sell, this will be your chance!

I put a sheet out to get topics for our October *Stations of the Club* session. I got four ideas – mortise & tenon techniques, proper use of a router, advanced Kreg jig techniques, and sharpening of all tools. Do you have other requests? Maybe you'd like to be one of the demonstrators! Please let me know ASAP.

Have you made plans for April 1<sup>st</sup> and 2<sup>nd</sup>? Why not take the time to experience a wonderful woodworking show in Saratoga Springs put on by NWA, the Northeastern Woodworker's Association – their 26<sup>th</sup>! It is well worth the drive. I've provided some information for you on page 8.

What's going on at Eight Acres? I spent several hours working on toys for my grandnephew's 2<sup>nd</sup> birthday. The box in Raleigh and I am waiting to get a reaction. Since his birthday is the 23<sup>rd</sup> of February, I could not show the toys at a meeting but I will bring photos. I am also working on a big beading project that will be donated for breast cancer research. I will bring the piece to our meeting for all to see. Of course Charlie is working in the basement or barn regularly. When I get up most days there is one or two – sometimes more – new bowls on the table.

Don't forget about my 2017 challenge to members: Each member presents at least one piece for *Show & Tell* during the year! Come on, I know you are woodworking! Photos of large pieces are acceptable!

It's time to close but ... *Keep on creating!*

Barbara ✂

## NEW MEMBERS & VISITORS

SWWA's membership for 2017 is 123 with just 52 2016 members who have yet to renew. We also received

three new members at the February meeting: **Bill Licurse** of Manlius, **John McCabe** of Cazenovia, and **Mike Whalen** of Cicero. We also had a collection of visitors including several wives of members plus **Barry Gordon** of Baldwinsville and **Gary Kieffer** of Moravia. If you know of someone who is interested in the club and should receive a newsletter, please notify Barbara. ✂

## MEMBERSHIP INFORMATION

SWWA's membership runs the calendar year with renewals due each year by March 15<sup>th</sup>. The cost of membership remains the same; first time single members pay \$28 which includes a name badge and single renewals are \$25. You can also select a couples membership for \$41 initially (includes 2 name badges) and \$35 for renewals.

Whenever possible, newsletters are sent by email which means it arrives quicker, in color, and at a lower cost to the club. We do still send the newsletter by mail if members do not have an email address and have newsletters available at most meetings. Visitors are sent a newsletter for one month after their visit. We also don't add the newsletter to the website until the month is nearly over (or later) since receiving the newsletter before our meetings is one of the benefits to membership.

Our membership application is also available at most meetings and the website – [www.sawdustwoodchips.org](http://www.sawdustwoodchips.org). We ask that when completing the newsletter you print clearly so our database is accurate. At the bottom is a liability statement that we ask that you sign on a yearly basis to financially protect the SWWA membership. When joining or renewing, it is not enough just to send a check; we need the completed and signed form as well. Send all forms to our treasurer: Mark Baumes, 169 Edgehill Road, Syracuse, NY 13224. Please, do not send cash. ✂

## OFFICERS & BOARD OF DIRECTORS – 2017

President:	<a href="#">Barbara Raymond-LaPrease</a>	638-1217

Board Member:	<a href="#">Don Vanderveer</a>	315-635-6409

*There's snow in the forecasts now so we must issue this policy.*

*Whenever driving in weather – even rain – please be careful!*

### WEATHER CANCELLATION POLICY

It is very unusual that SWWA meetings are cancelled due to weather. However, should the weather be questionable, a decision to adjust the date will be made by noon on the day of the meeting. **All notifications will be made via email.** Phone calls will be made only to the few who receive their newsletter via the USPS. We will try to place notifications on local TV media also. If there is a question, please call Barbara, Charlie, or a member of the Board (*page 2*).

## FEBRUARY'S MEETING RECAP!

Members of the Sawdust & Woodchips Woodworking Association met on Wednesday, February 1<sup>st</sup> for their monthly meeting in the Community Room at Station One of the Belgium Cold Springs Fire Department. About 70 people attended.

Our planned speaker was **Dave Eichorn** but he was unable to attend due to illness so we flipped to plan B – **Charlie LaPrease** gave an excellent demonstration and talk on turning a bowl. Note that Dave will be our speaker in April and we've flipped **Bruce Meissner's** demonstration on bent lamination to August.

For his demonstration, Charlie talked thru his method for turning a bowl – mounting the blank between centers, forming the outside and a tenon, flipping the blank around and mounting it in a chuck using the formed tenon, and removing the bowl's inside. Throughout the demo, he talked about safety when turning, tools, and a variety of other topics. He even had a Roy Underhill moment needing a bandaid! Members of the CNY Woodturners were invited since many could not make it to their February January meeting when he gave a similar demo.

Before Charlie's presentation, we held our usual *Show & Tell* session and had another unusual but wonderfully educational group of projects displayed and discussed by the participants. Surprisingly, it was quite small but still contained some great pieces!

**Jon Haney** started us out showing a maple square turned bowl. He'd turned it for the CNY Woodturner's monthly challenge but missed the meeting due to weather.

↑ Jon Haney

→ Jim Yonkers

**Jim Yonkers** showed a PVC clamp he created as well as his driftwood shark. For the shark, he took a piece of driftwood, enhanced it as needed with paint and other components and even added an eye.

Last month, **Mitch Wilson** brought a fruit basket shelving unit, a design he developed. This month, he brought in a medicine cabinet (picture next page) he's building using a tropical wood from Mexico and Central/South America called bocote (*Cordia* spp.). This wood is a yellowish brown with dramatic dark brown strips. Its color will

darken with age. Mitch showed how the unit will be assembled and noted that there will be drawers as well. He is using Tru-oil, a gunstock finish, for the finish. He indicated he experienced no issues planing the wood.

Our last participant was **Steve Goodman** who showed a sculpted table he started a while ago but never finished. He used hand tools for its creation along with mortise and tenon joinery throughout. Steve even hand cut the dovetails for the drawer corners. This table was supposed to be a prototype so it is made from low cost poplar. It

certainly doesn't look like it because he used a dye stain of half mahogany and half walnut colorings after applying two blotch control coats of watered down white glue with a sanding after each coat. The final finish is shellac and poly. Great *Show & Tell* everyone! I think that Jim wins the creativity award for the month!

See you all on March 1<sup>st</sup> for the next meeting with John Witherbee who will steam bend wood! ✂

**CHALLENGE:** Don't forget that during 2017, I want to see a *Show & Tell* item from each member!

## SCROLLING INTEREST GROUP MEETING

**Meeting Night: Third Wednesday of Jan. / Mar. / May / Sep. / Nov. at 6:30 pm**

**Next Meeting: Wednesday, March 15<sup>th</sup> at the Belgium Cold Springs Station 1**

**Challenge: One or Two Newly Scrolled Pieces!**

**Also: Show & Tell & Woodworking Questions Answered**

The next Scrolling Interest Group will be **Wednesday, March 15<sup>th</sup>**. We've not decided on a topic but please bring in one or two recently scrolled pieces to discuss and

your ideas for future programs. Remember, just because you suggest a topic, you don't have to present it! ✂

## CENTRAL NEW YORK WOODTURNERS MEETING

SWWA is not the only woodworking club in the area. For woodturners, there is a genre-specific club, the **Central New York Woodturners**. The club meets at 6:15pm on the second Tuesday of the month. The next meeting is on **Tuesday, March 14<sup>th</sup>**. It will be held in the Community Room at Belgium Cold Springs Fire Department Station 1, right where the SWWA

club meets. . Like SWWA meetings, they also have a featured demonstration in addition to *Show & Tell*.

The topic for the March meeting is **Live Edge Turning**. **Terry Vermilyea** is the demonstrator. Their website is [www.cnywoodturners.org](http://www.cnywoodturners.org). If you need more information, talk to **Charlie LaPrease** at the meeting. ✂

## SCOUT PINE WOOD DERBYS – THANK YOU

On January 29<sup>th</sup> and February 4<sup>th</sup>, the Cub Scouts and Girl Scouts held their respective Pinewood Derbys at the Methodist Church in Baldwinsville. Why does that matter to our club? First, these kids are potential future members. But, second, since 2011, we've been asked to help out at these events due to member **Bo Rinn's** involvement as a Cub Scout pack leader. Three years ago we were asked to also help at the Girl Scout event. What do we do? We handle car check-in which includes labeling, measuring, and weighing of the cars. We handle special prize selection. And, most of all, we handle the over 100 cars for races as well as perform the starter function. Many thanks go out to the following people who helped at one or both of the events: **Susan Allen, Bob Casey, Steve Coyle, Kathy Czajkowski, Barb & Charlie LaPrease, John Meloling, Amy North, Doug North,** and **Sue Vanderveer.** ✂

## SHAKER BOX & PLANE MAKING CLASSES

### MARCH 3-5, 2017 AT LAKESHORE HARDWOODS

For the 22<sup>nd</sup> year, there will be a Shaker Box & Plane Making classes in Upstate New York. The classes are held March 3<sup>rd</sup> thru 5<sup>th</sup> at Lakeshore Hardwoods in Pulaski. This year, **John Wilson** will not be teaching due to his recovery from pneumonia. Instead, **Eric Pintar**, John's partner for 15 years, will join us to run the classes.

Beginners & Advanced Shaker Box Classes run simultaneously on Friday from 6pm to 10pm and on Saturday from 8:30am to 5pm. The Plane Making Class runs Sunday from 8:00am to 4pm. All materials are provided for each class.

Participants in the Beginners Shaker Box class produce 5 complete Shaker boxes, sizes 0-4.

Advanced Shaker Box Class participants pick their projects from many different options including the oval tray, music box, handle basket, jewelry box, presentation box, or any of the sizes of legacy Shaker boxes. The options are many.

Plane Making Class participants can make a MOLDING PLANE, SHOULDER PLANE, BLOCK PLANE, or a returning favorite -the SPOKE SHAVE.

**Eric Pintar** will travel from Michigan to teach the class. The cost is \$150 per class.

To Register – Contact **Bob Casey** at 263-9228 or via email at [woodnutbob@hotmail.com](mailto:woodnutbob@hotmail.com).

If you have questions or unique needs, please talk to Bob.

*Thank you for supporting these classes for so many years.* ✂

**Last Chance  
to Enroll!  
A Few Spots  
Available!**

**Snacks** – The club provides coffee and purchased snacks for meetings. **Don Vanderveer** leads the hospitality committee but he can always need help! **Please consider stepping up!** Your homemade goodies are always welcome but we welcome every food donation! For those of you who have generously brought food during the past year, we thank you. ✂

## WOODWORKING EDUCATION – MAKING THE MOST OF YOUR PLANER

<http://www.woodmagazine.com/woodworking-tools/power/get-the-most-from-your-planer>

**M**ake your planer more effective at doing its main job – planing boards to thickness – and multiply its usefulness by putting it to work in ways you might never have considered before. Here are some tips.

### Veer from the Straight Path

Feeding boards at a slight angle not only reduces surface chip-out, but also helps limit any snipe to one corner. You can also feed a board at a sharp angle; then straighten it somewhat after a couple of seconds. This only works, however, on benchtop planers with rubber feed rollers. Stationary models with steel rollers will not allow you to straighten a board once it starts feeding.

### Make a Board Train

Planing boards end to end keeps the feed rollers at a consistent height, taking away the chance for snipe. Use scrap pieces to lead the first board and follow the last.

### Plane Thin Boards with Ease

Take shallow cuts ( $1/64$ " ) when planing thin stock, so you don't accidentally shatter the workpiece. If you want to plane a workpiece to a thickness less than  $1/4$ " , you'll get the best results by using an auxiliary bed. Although most planers indicate they will cut to  $1/8$ " thick, don't try it: You risk deep snipe and chatter marks. Instead, place a 3'-long piece of melamine through the planer, and clamp it to the infeed and outfeed tables. Then plane your stock to thickness as usual, as shown. To plane a short board thin, double-face tape it to a 15"-long piece of  $3/4$ " plywood, MDF, or particleboard. This allows the workpiece to ride piggyback through the planer.

### Runners Secure Short Stock

Scrap wood runners help you get use from cutoffs, like this 8" piece of leopardwood. Because most planers won't safely and accurately machine single workpieces shorter than 12", use special runners when you need to plane a board that short, as shown. To do this, glue sacrificial runners - at least 12" long and slightly thicker than the workpiece - to your stock's edges. Be certain to glue the carriers parallel to each other so they will maintain equal contact with the feed rollers. Wipe away glue squeeze-out that will nick the knives. Once you've milled your board to the desired thickness, rip away the runners on the tablesaw.

### Warped to Flat in Practically No Time

We cut this 10"-wide, bowed birch board to rough length, and then glued it to sacrificial runners to carry it through the planer. Chalk marks vanish when the face is flat. Then rip away the runners at the tablesaw, and plane the opposing face to the desired thickness. ✖

## SHOP TIME: Versatile Old Fashioned Clamps

<http://www.woodsmithtips.com/2017/01/12/the-most-versatile-clamps>

Wood handscrews have been around for over a century. The early ones were basic devices with wood threads, but they were a mainstay in every woodshop. What makes a handscrew different from other woodworking clamps is the way the jaws can pivot out of parallel. The two steel spindles are threaded through cylindrical nuts in the hardwood jaws. One end of each spindle has a right-hand thread and the other end a left-hand thread. When you turn the handle, the jaws move in opposite directions to open or close. This unique construction is what makes a handscrew so handy in the shop. Keeping the large jaws parallel provides a long reach and a broad clamping surface — perfect for leveling the joints of a glue-up. But you can angle the jaws inward, too. Doing this lets you apply a lot of clamping pressure.

For clearance when working with small parts, clamp them in a handscrew, then clamp the handscrew in your face vise.

A pair of handscrews clamped to the benchtop makes a stable base for working the edge of a workpiece.

A handscrew acts as an extra hand to clamp small or awkward parts for safe and accurate drilling. ✂

## ON THE ROAD: SOMERSET, NJ WOODWORKING SHOW – 2017

Well here we go again! Don't we ever stay home? No, not when there is a woodworking show close by; well sort of close, only 4 hours away! This time it was a trip to Somerset, New Jersey, which is about 20 miles from New York City; close enough for me.

Barb and Charlie arrived up at my house about 8am on Friday. Once they were in the van, we headed south on 81. Oh yeah, where is our fourth, Peter Oster? Well we stopped at McDonalds in Lafayette and picked him up then headed toward Somerset. The weather was great, with no snow and good roads all the way.

We stopped once in the Delaware Water Gap about 10 miles before the Penn-New Jersey border and then continued on. We arrived about 12:15. It was much more crowded than the Springfield show in January. Luckily I have a *Handicap* sticker, so we found a spot near the door.

As we entered, there was already a parade of people leaving the show loaded with wood. Wow, 15 minutes to buy? That's crazy. Anyway, as usual we all went our separate ways. I wanted to see the Barry Gross seminar on pens. I was accused, *FALSLY OF COARSE*, of heading to see Alex Snodgrass again. I did see him later in the day, but not for a whole seminar. I know how to tune a band saw but love to talk cutting boards with him.

I've been wanting the 8" slow speed grinder from Rikon. The regular price is \$139 and Woodcraft had it on sale for

\$99 until the February 27 plus shipping of \$14.99. At the show, it was \$92 and no shipping so after the pen class, I got it! Previously I bought a used Wolverine system for sharpening my lathe tools; now I can sharpen mine when I get it all set up.

I saw Bud Millis and Barb & Charlie ran into John Haluch. After the grinder purchase, I roamed around, checking out various vendor displays and chatting with the guys I know. I had a list of *wanted* items which I purchased and picked up things for other people as well.

As usual, we had a great time and decided to head home about 4:15. There were more vendors and clubs than Springfield, but both shows are on my agenda again for 2018! Heck in the winter, we need to look forward to something and what else but woodworking shows!

We headed toward home planning to stop for dinner just past Scranton to have stuffed meatloaf. They did not have it this week so I had pork chops which were great. We headed home, left Peter in Lafayette, and headed back to Mattydale where Charlie and Barb picked up their car.

Next Up? The Shaker Box/Plane classes March 3-5! I still have room if you want to go! Call ASAP though!

And, of course there is the Saratoga weekend for the NWA Showcase on April 1<sup>st</sup> and 2<sup>nd</sup>.

*Happy Woodworking!* Your roving, never home reporter,

**Bob Casey ✂**

## NWA SHOWCASE / TOTALLY TURNING

Many of us gain valuable knowledge and get to meet the vendors by attending woodworking shows. The closest organized by a local club is **Showcase**, run by the Northeastern Woodworker's Association (NWA). Their 26<sup>th</sup> annual show will be held at the Saratoga Springs City Center on **April 1 -2** from **10am to 5pm** daily. The featured demonstrators for 2017 are **Doug Stowe, Bob Van Dyke, and Ernie Conover**. A schedule for this year's demonstrations is on the show website. On the schedule is our own **Terry Dote** who will present both days on **Veneering Using Hide Glue!** The show website is: <http://www.nwawoodworkingshow.org/information.htm>

Concurrently, the woodturners of NWA host their *Totally Turning* 2017 event with **Trent Bosch, Jimmy Clewes, David Ellsworth, Chris Pytlik, and Curt Theobald**, as 5 of the featured demonstrators.

This year's feature exhibit on the second level is *Fiber Arts Unraveled* presented by the Hudson-Mohawk Weavers Guild and Rock day Spinners. Also, the Adirondack Bluegrass League will entertain and delight with a two day music festival in the upstairs area.

Anyone who's gone to this event in the past will tell you it is worth the drive to attend. In addition to the free seminars, there is a vendor show, opportunities to turn a pen, demonstrations by the many NWA guilds, and the Showcase Gallery. Many members spend the weekend. A group always goes to dinner nearby on both Friday and Saturday evening. Everyone is welcome!

Many folks ask, **Can I enter my woodworking in the Showcase Gallery?** I am not a member of NWA. The

answer – **Yes!** To enter your piece in the Gallery, there are two requirements.

The first is to fill out the form found [here](#) and send it to event staff by **March 24<sup>th</sup>**. When filling out the form, you must remember that you can enter multiple categories but only one piece per category will be judged. The categories are on the form.

The second requirement is that you must deliver your piece between 3pm and 6:45pm on Friday, March 30<sup>th</sup>.

Oh, a third requirement is that you cannot remove the piece from the Gallery before 5pm on Sunday.

Wait, I want to enter the **Totally Turning Instant Gallery**.

Ok, there are two differences – first you don't fill out the form because you will register your pieces upon arrival but they need to be entered before 6pm on Friday if you want the pieces judged.

And, second, there is no limit on the number of items you can enter.

You may deliver on Saturday or Sunday but then the pieces will not be judged.

What are the categories for Totally Turning? They are not yet listed on the website.

Going to the event for the weekend? Make your reservations **today**. There is a discount rate at the Saratoga Hilton adjacent to the event. There is a Hampton Inn down the hill from the City Center. Check the event [website](#) for more information on discount codes. ✂

## 2017 SWWA MEETING SCHEDULE

<b>January 4 – Mike Danial – Furniture Care, Restoration &amp; Finishing</b>	<b>July 5 – Rod Castle – Turning a Crushed Grind Peppermill</b>
<b>February 1 – Bowl Turning – Charlie LaPrease</b>	<b>August 2 – Bruce Meissner – Bent Lamination Bending</b>
<b>March 1 – John Witherbee – Steam Bending</b>	<b>September 6 - TBD</b>
<b>April 5 – Dave Eichorn – Humidity – Facts &amp; Myths</b>	<b>October 4 – Stations of the Club</b>
<b>May 3 – Annual Auction (see page 2)</b>	<b>November 1 – 12<sup>th</sup> Woodworker's Challenge</b>
<b>June 7 – Jason Hill+ – Black Ash Basket Making on the Akwesasne Reservation</b>	<b>December 7 (Thursday) – Annual Holiday Party</b>

## COMMUNITY BULLETIN BOARD

**FOR SALE: Hawk Model 226VS 26" Scroll Saw** with Foot Switch and Magnifying Light. \$1200.00 new and used very little. Make me an offer. Contact Mel Taber, 487-7855 or [mtaber3@verizon.net](mailto:mtaber3@verizon.net)

new

**FOR SALE: General Model #15-155 MT 13" Horizontal Single Drum Thickness Sander With Mobile Base**, 1 1/2 HP Main Motor [ 110 V, 13 A ], 1/5 HP Conveyor Motor, Max Sanding Thickness 3 3/4", Min Sanding Thickness 1/4", Min Sanding Length 5", Drum Diameter 5". Perfect shape. Partial roll of sandpaper included. \$900.00 or offer. Contact Mel Taber, 487-7855 or [mtaber3@verizon.net](mailto:mtaber3@verizon.net)

**FOR SALE: Large selection of wood** including >60bd feet of mahogany plus small selection of maple walnut, cherry & poplar. Prices negotiable. Contact Dave Mirizio at (315) 263-2341.

**FREE TO A GOOD HOME – 60 Red Pine Stickers** (1" square by 48" long). Contact Steve Coyle at (315) 308-8954 or [scoyle49@icloud.com](mailto:scoyle49@icloud.com)

**FOR SALE: Craftsman 8 inch Bench Grinder** with 5/8 arbor, 1hp motor. \$70. Contact Bob Silberman at (607) 257-0939 or [rsilbermantwcnny.rr.com](http://rsilbermantwcnny.rr.com).

**FOR SALE: Jet 1014 Mini Lathe & stand.** Barely used. \$425. Contact Bob Ireland at [rireland@twcnny.rr.com](mailto:rireland@twcnny.rr.com) if interested or if you have questions.

**FOR SALE: Used bench vises.** Good quality, commercial grade. Price \$50 to \$75 each. For more info, email Bud Millis at [emillis@twcnny.rr.com](mailto:emillis@twcnny.rr.com) or call (315) 297-7525.

**FOR SALE: Jet Model 1442 Lathe.** Lightly used over 10 years. \$1000 or best offer. Contact Kris Dulmer at (315) 559-7360 or [kdulmer@hotmail.com](mailto:kdulmer@hotmail.com)

**FOR SALE: Earlex 5500 HVLP Spray Unit** includes extra needle, cleaning kit, small tool box for parts, 1 gal & 1 quart Target Water Base Lacquer, 1 gal Target Water Base Sanding Sealer. **Now \$240.** All new & purchased for >\$400. Contact Bob Henry at (585) 323-1166 or [bbhnry@yahoo.com](mailto:bbhnry@yahoo.com)

**FOR SALE: Rockwell/Delta Lathe** on a factory metal stand. Very good shape; no issues. 11" over bed; 14" over cut out; 37.5 between drive arbor & tailstock; 1/2 HP; multiple speeds with variable speed pulleys on headstock & additional on transfer shaft. \$250. Also Craftsman lathe on factory metal stand. \$80 as is. Contact Larry Hartle at (315) 406-7079 or [jawk50@aol.com](mailto:jawk50@aol.com)

**Sharpening Services: Two Options**

❖ One is run by **Gordon Scholfield** out of the storefront of Tweeter Feeders which is located on the east side of Route 57 just a half mile north of Route 31. His prices are reasonable. A price list is available at the service desk in the store. If you use his services, let us know.

❖ One is run by **Paul E. Hart** and is located at 7902 Kirkville Rd, Kirkville, NY 13082. The phone number is (315) 656-2899. Phyllis Radford noted that her father, Jim Kurtz, previously used the service. The prices depend upon the number of teeth and size of blades. He also sharpens hand saws and replaces tips on saws. If you use the service, please report back.

### **Directions from Syracuse & Suburbs to *Station One of Belgium Cold Springs Fire Dept.***

Take 690 West to John Glen Blvd. Take John Glen to RT 370/Cold Springs Road. Make a left at the traffic light. Travel 1 mile to River Rd ["Cold Springs"], turn right on River. Travel 2 miles to the firehouse. Park in the lot on the north side of the firehouse or on the streets (one side only). **DO NOT PARK IN FRONT OF THE FIREHOUSE DOORS.**

Alternate route – Take Rt 370 through Liverpool and when you cross over John Glenn Blvd, use directions above.

The website has a map and more directions. Check it out.

***See you there!***
