January 2018  
Volume 27, Issue 1

## THIS MONTH'S EVENT!

The **Monday, January 8<sup>th</sup>** meeting of the Sawdust & Woodchips Woodworking Association will feature **Mike Danial**, the Historian for L & J G Stickley Inc. of Manlius. Mike's topic for this year's talk? I am titling it ***The Story is as Important as the Object!*** What does that mean? Mike will address how furniture and wood crafting is a way to communicate with future generations. We know that it will be great! So, come, renew your membership, bring *Show & Tell* items, and relax on Monday evening, January 8<sup>th</sup> while listening to another great talk by Mike!

As usual, you are welcome to bring others who might be interested in hearing Mike – just be sure to sign them in so we can keep contact with them! I hope you will attend this meeting! Don't forget our meetings are held at the **Community Room** of the **Belgium Cold Springs Fire Department's Station 1** at **7920 River Road**, Baldwinsville.

In addition to our program, this meeting is a great time for you to process your membership renewal. Come early to beat the crowds. **Mark Baumes**, our treasurer, will be taking your renewals starting at 5:30pm. **We know that everyone hates to complete the membership form, hopefully you picked up your preprinted form with information we currently have on file. If not, he will have them at the meeting.** Please bring your form to the meeting with any corrections and pay with a check (made payable to SWWA) or cash. Let's try to get all our membership business done quickly and at this meeting!

Over 90% of you have chosen to receive the newsletter by email which means you get your newsletter quicker, in color, and at a lower cost to the club. Of course in order to receive the newsletter via email, your email address must be accurate. So, be sure to accurately record it on your application form. Remember, just because you can read your handwriting, doesn't mean we can so please print as clearly as possible. Come early so we can start the meeting as close to 6:30pm as possible.

After our short business meeting and before the break we will also have our usual **Show & Tell** session. This part of our meeting is always fun, educational, and eye-opening as members and guests show off their latest projects. Each

**Membership Renewals  
Start at 5:30pm**

**Reminder: Meeting starts at 6:30pm and is held at the Belgium Cold Springs Fire Station 1 Community Room, 7920 River Road, just southeast of Baldwinsville. Directions are on the back page and on the website**

month we have some great participation in this portion of the meeting and Barbara set out another challenge for 2018 – 1 project from each member. Be sure to sign-in your project and give a brief description of your project. Also, at the meeting we will start a new tool raffle and hold our monthly 50/50 raffle.

We hope you will join us at the meeting! See you on **Monday, January 8<sup>th</sup> at the Belgium Cold Springs Fire Station 1 Community Room.**

[Why Monday? We can't meet on Wednesdays thru May and the first Tuesday is the day after New Year's. The Board felt delaying the meeting one week would be smart. We could not have it on Tuesday the 9<sup>th</sup> because the Woodturners will meet then.]

Remember, **Don Vanderveer**, our Mr. Hospitality, will welcome any snacks you are willing to bring and any help you are willing to give! ✂

## PRESIDENT'S CORNER

As we start 2018, we are in a deep freeze. I just stepped outside to play with Credence, the neighbor's dog, and what a chill. Even with boots, a hat, gloves, a scarf, and a heavy coat I am frozen. The dog was enjoying chasing the Frisbee and lying in the snow to cool off. He only got distracted once or twice by a potential small animal. I am glad I am back inside.

We had a great time on December 7<sup>th</sup> at our annual Holiday Party. Nearly 100 people easily filled the newly renovated Harbor ballroom at the Doubletree. We will be returning there in 2018 but on Wednesday, December 5<sup>th</sup> which will make it easier on Charlie and me. We scooted quickly and made it to the firehouse just as they were beginning to vote on firematic and department officers. As of January 1, Charlie will be a Lieutenant and a member of the Board. He is also now qualified to drive Engine 11 and working on qualifying to drive Ladder 1.

Our 27<sup>th</sup> year of operation, 2018, starts off a little unique in that our meeting is not the first week or even on a Wednesday but rather a Monday. Why? Let's just say conflicts that could not be helped plus the timing of the holiday. Check page 3 for all the meeting dates for the first 6 months as we've also needed to change days thru May. Don't miss a meeting! Note it on your calendar today!

Santa's Workshop at Eight Acres was quite busy up until Christmas Eve – or maybe it was Christmas Day in Charlie's world. I sent the package to Raleigh for the grandniece and grandnephew and it arrived safely on the Thursday before the big day. Inside was a name train for the boy that somehow even fit perfectly on the wooden train track my sister bought for him. A new busy bee pull toy went to the girl. Credence's dad got a plaque that resembles the dog along with some ornaments. I almost forgot how much I enjoyed scrolling! Time to start on my projects for NWA's Showcase in Saratoga Springs, March 24-25!

What do you want to learn in 2018? The Board has the first 6 months of meeting topics set. There is still time to tell one of the Officers and Board of Directors what topics you'd like us to focus on. Please step up to tell us.

For 2017, I challenged every member to bring in at least one *Show & Tell* piece to a meeting. Including the Woodworker's Challenge and Scrolling Interest Group meetings, 55 members took me up on that challenge. One member, **Jim Yonkers**, brought pieces to 7 of 11 meetings. **Bill Noroski** brought pieces to 6 meetings. **Bob Casey** and **Mitch Wilson** brought pieces to 5 meetings. I had hoped that this challenge would increase the number of pieces brought in for *Show & Tell*. It sort of did but I am again issuing the Challenge for 2018! Let's show off what you make. Don't have it because it was a gift or it's too big? Bring in a photo. And if you use a pattern, try to bring in what that is.

It is time to close but .... *Keep on creating!*

Barbara ✂

## NEW MEMBERS & VISITORS

SWWA's membership for 2017 is at 155. It was great to have all the wives and other guests at our annual holiday party on December 7<sup>th</sup>.

If you know of someone who is interested in the club, please notify Barbara. ✂

## MEMBERSHIP INFORMATION

SWWA's membership runs the calendar year with renewals due each year by March 15<sup>th</sup>. The cost to renew your membership remains the same with single renewals at \$25 and a couples renewals at \$35. For new members, we add \$9 to pay for badges.

It is time to start processing renewals. As has been the habit in past years, Mark Baumes, our treasurer, will have pre-completed membership forms at the January meeting. You may retrieve your form and pay Mark at the meeting or mail it to the address on the form.

Whenever possible, newsletters are sent by email which means it arrives quicker, in color, and at a lower cost to the club. We do still send the newsletter by mail if members do not have an email address and have newsletters available at most meetings.

Our membership application is also available at most meetings and the website – [www.sawdustwoodchips.org](http://www.sawdustwoodchips.org). We ask that when completing the membership form you print clearly so our database is accurate. At the bottom is a liability statement that we ask that you sign on a yearly basis to financially protect the SWWA membership. When joining or renewing, it is not enough just to send a check; we need the completed and signed form as well. Send all forms to our treasurer: Mark Baumes, 169 Edgehill Road, Syracuse, NY 13224. Please, do not send cash. ✂

## MEETING NIGHTS – JAN THRU MAY 2018

Our meeting nights from Jan to May will change due to an EMT refresher class being held in the Community Room at the Fire Department. The class will be held on Wednesdays thru May. Therefore, all SWWA meetings **must move**. **Most of the meetings will be on Tuesdays EXCEPT for January**. The Board felt that January 2<sup>nd</sup> would be tough so the meeting will be on **Monday, January 8<sup>th</sup>**. We know the meeting night changes cause some issues for people but it is a necessary change. So, plan ahead:

- ✓ **Monday, January 8** – Mike Danial, Stickley Historian – Topic TBD
- ✓ **Tuesday, February 6** – Framing with Roland / Cutting Glass with Tony
- ✓ **Tuesday, March 6** – Photographing Your Projects with John
- ✓ **Tuesday, April 3** – Canoe Building with Federico
- ✓ **Tuesday, May 1** – Swap Meet & Wood Auction

## WEATHER CANCELLATION POLICY

It is very unusual that SWWA meetings are cancelled due to weather. However, should the weather be questionable, a decision to adjust the date will be made by noon on the day of the meeting. **All notifications will be made via email**. Phone calls will be made only to the few who receive their newsletter via the USPS. We will try to place notifications on local TV media also. If there is a question, please call Barbara, Charlie, or a member of the Board (page 2).

## DECEMBER'S MEETING RECAP

Members and guests of the Sawdust & Woodchips Woodworking Association gathered on Thursday, December 7<sup>th</sup> for their annual holiday party in the Harbor Ballroom at the Doubletree Hotel. We had nearly 100 people attend and each received at least one door prize before departing. We also gathered another amazing group of toys plus many gloves, blankets, and other

beautiful items constructed by members and their families. All of those items were donated to the Food Pantry at St. Rose of Lima Church in North Syracuse and distributed to disadvantaged families prior to Christmas through the Pantry. Photos of the event (thanks John Meloling and Shelly Kent) are on the following pages.

## SCROLLING INTEREST GROUP MEETING

**Meeting Night: Third Wednesday of Feb / Apr. / June / Sep. / Nov. at 6:30 pm**

**Next Meeting: Monday, February 19<sup>th</sup> at the *Belgium Cold Springs Station 1***

**Topic: TBD**

**Challenge: Your Recent Scrolling Projects**

**Also: Show & Tell & Woodworking Questions Answered**

The Scrolling Interest Group meetings for 2018 are listed below. In order to involve more of our "Florida" scrollers and maybe avoid the bad winter weather, we are shifting our spring meetings by one month. We also had an issue with the firehouse being used on Wednesdays thru May and of course a conflict on one of our chosen days. So the schedule for 2018 is:

Monday, February 19 <sup>th</sup>	Tuesday, April 17 <sup>th</sup>	Wednesday, June 20 <sup>th</sup>
Wednesday, September 19 <sup>th</sup>		Wednesday, November 14 <sup>th</sup>

If you are giving away your scrolled projects at Christmas, take some photos to show at the February meeting! ✂

## OUR ANNUAL HOLIDAY PARTY

## SHOP TIME: Tips for Working with Small Parts

<http://www.woodsmithtips.com/2017/11/16/working-with-small-parts>

Many of us work with small parts when building even large pieces of furniture. Here we are going to talk about safety when working with small pieces and parts!

### Keep It Large

The first principle in small-scale work is to keep the parts large for as long as possible. For example, start with a long or large blank when edge-routing a profile for a thinner piece (far left). Then cut the part away from the blank (left). This way, you have much better control and the piece is far less likely to be pulled from your grip by the router or saw.

### Make a Sled

A great go-to jig is a small parts crosscutting sled. As you can see in the photo at right, this handy jig is made from cutoffs of hardboard and hardwood. The sled incorporates a fence to keep the workpiece square, a stop for repeatable-length cuts, and a brace for the fence that acts as a blade guard. With this sled, you can easily trim small pieces to length.

### Small Tools

Another helpful idea for small jobs is to use a smaller tool. This can mean reaching for your rotary tool and one of the many small-scale attachments available. It's tough to match the performance of these tools and all their accessories for getting into tight spaces.

### Handscrews

Unless the part is really tiny, a handscrew can usually get a bite on it and hold it securely. Reach for one when routing a small workpiece (photo at right). The big advantage these have over other clamps is their ability to hold irregular shapes. By skewing the jaws, you can grip almost any part. For an even more secure grip, attach some adhesive-backed sandpaper to the jaws

### Pencil Hold-Down

There's nothing worse than having a small piece grabbed by a blade and shot out from the saw. It can ruin the workpiece and your day. Quite often, a shop-made jig just needs a simple hold-down to keep your fingers safely out of the way of a blade or bit. For this task, many woodworkers rely on the humble pencil eraser. The rubber tip provides plenty of friction to hold a small piece in place during a cut. Best of all, you probably already have several in your shop.

### Carrier Board

When it comes to planing very thin pieces (1/8" thick or less), an easy and safe method is to attach the blank to a carrier board with double-sided tape. This allows you to use your planer without bottoming out the cutterhead. For the best results, make sure the plywood or MDF carrier board is completely flat.

### Small Miter Box

An inexpensive tool that will become your favorite is the small miter box and saw shown in the photo at left. The box has very accurate 22.5°, 45°, and 90° slots that guarantee your joints and parts will fit perfectly. And the anodized aluminum construction is tough as nails, so it won't easily bend or distort with use. Included is a high-quality back saw with super-fine teeth (35 TPI). The high tooth count of this saw leaves the freshly cut surface smooth as glass. The combination of the box and saw allows you to stay away from power tools when making small parts. [MicroMark has one - <https://www.micromark.com> ...you can even find them on Amazon!] ✂

## SHAKER BOX & PLANE MAKING CLASSES MARCH 9-11, 2018 AT LAKESHORE HARDWOODS

For the 24<sup>th</sup> year there will be a class in Upstate NY on making Shaker Oval boxes and learning tool making. Beginners & Advanced Shaker Box Classes run simultaneously on Friday from 6pm to 10pm and on Saturday from 8:30 am to 5pm. The Plane Making Class runs Sunday from 8:00am to 4pm. All materials are provided for each class at a nominal cost.

Participants in the Beginners Shaker Box class produce 5 complete Shaker boxes, sizes 0-4. Advanced Shaker Box Class participants pick their projects from many different options including the oval tray, music box, handle basket, jewelry box, presentation box, or any of the sizes of legacy Shaker boxes. The options are many. Plane Making Class participants can make a BLOCK PLANE, CHISEL PLANE, SCRUB PLANE or SHOULDER PLANE.

The instructor travels from Michigan to teach the class. The cost is \$150 per class plus materials (\$30-\$40 estimated).

To Register – Contact Bob Casey at 315-263-9228, via email at [woodnutbob@hotmail.com](mailto:woodnutbob@hotmail.com), or sign up at the January meeting. Payments are due March 1<sup>st</sup> but earlier is always acceptable.

If you have questions or unique needs, please talk to Bob.

*Thank you for supporting these classes for so many years. ✂*

## 2018 MEMBERSHIP RENEWAL STARTS NOW!

Yep, it's that time again! Time to renew your membership in this great organization! For just \$25 a year (for a single person renewal and \$35 for a couples renewal), you can proudly tell others that you are a member of the premier woodworking organization in Central New York. Your membership provides you with this newsletter, a no-cost family picnic, a reduced price on our annual December banquet, opportunities to win 50/50 raffles and woodworking tools, a great selection of educational meetings, member pricing to all seminars, and discounts at various vendors. Of course, membership also adds you to the great family of woodworkers that span many miles of Central New York! We are a family and hope you will renew! Or, if you are reading this and contemplating joining, it's time to join us. We love to have fun and learn at the same time!

**Beat the Crowds at the January meeting!** Use the form on the next page and PRINT CLEARLY your information. Then, send it to Mark with your check to pay your membership!

**We encourage you to receive your newsletter via Email.** While the cost is less to the club, it also benefits you. First and foremost, you receive the newsletter in **full color** the day it is finished. You do not have to wait to receive it and hope that the Post Office doesn't destroy it.

### AmazonSmile

### A Chance to Give with a Click!

Do you make purchases on Amazon?

Did you know that you can give money to a qualified 501(c)(3) organization without adding any cost to your purchase on Amazon? The AmazonSmile Foundation will donate 0.5% of the purchase price from your eligible AmazonSmile purchases to a qualified 501(c)(3) organization. How?

First, setup your Amazon launch page (i.e. the first page you connect to when purchasing from Amazon) so you are using the link [smile.amazon.com](http://smile.amazon.com). Then, select the charity to which you want to give! The first time you go to [smile.amazon.com](http://smile.amazon.com), you will select a charitable organization to receive donations from your eligible purchases.

What organizations can you give to? There are almost a million public charitable groups. One suggestion, select *Belgium Cold Springs Fire Department* as an easy way to give back for use of the firehouse for our meetings since we use it for FREE!

*There is NO ADDITIONAL CHARGE TO YOU!*
