

# WOODCHIPS

Sawdust & Woodchips Woodworking Association  
www.sawdustwoodchips.org

March 2018  
Volume 27, Issue 3

## THIS MONTH'S EVENT!

You've created a wonderful woodworking project and you'd like to create a record of your project. How should you photograph it to not only show the quality of your work but to document it for the future? Come to the **Tuesday, March 6<sup>th</sup>** meeting of the Sawdust & Woodchips Woodworking Association to find out. Our club photographer, **John Meloling**, will provide us with the answers to those and other questions during his March meeting demonstration. So, come, renew your membership (if you have not already), bring your *Show & Tell* items, and relax on Tuesday evening, March 6<sup>th</sup> at our next monthly meeting!

As usual, you are welcome to bring others who might be interested in joining or learning about our monthly topic – just be sure to sign them in so we can keep contact with them! I hope you will attend this meeting! Don't forget our meetings are held at the **Community Room** of the **Belgium Cold Springs Fire Department's Station 1** at **7920 River Road**, Baldwinsville.

In addition to our program, this meeting is a great time for you to process your membership renewal. We still have about 55 of our membership that has yet to renew! Come early to beat the crowds. **Mark Baumes**, our treasurer, will be taking your renewals starting at 5:30pm. **We know that everyone hates to complete the membership form, hopefully you picked up your preprinted form with information we currently have on file. If not, he will have them at the meeting.** Please bring your form to the meeting with any corrections and pay with a check (made payable to SWWA) or cash. Let's try to get all our membership business done quickly and at this meeting!

Nearly all of you have chosen to receive the newsletter by email which means you get your newsletter quicker, in color, and at a lower cost to the club. Of course in order to receive the newsletter via email, your email address must be accurate. So, be sure to accurately record it on your application form. Remember; just because you can read your handwriting, doesn't mean we can. So, please print as clearly as possible. Come early so we can start the meeting as close to 6:30pm as possible.

After our short business meeting and before the break we will also have our usual **Show & Tell** session. This part of our meeting is always fun, educational, and eye-opening as members and guests show off their latest projects. Each month we have some great participation in this portion of the meeting and Barbara set out another challenge for 2018 – 1 project from each member. Be sure to sign-in your

### Monthly Meeting Information

**Tuesday, March 6, 2018**

## PHOTOGRAPHING YOUR PROJECTS

*with John Meloling*

**Reminder: Meeting starts at 6:30pm and is held at the Belgium Cold Springs Fire Station 1 Community Room, 7920 River Road, just southeast of Baldwinsville. Directions are on the back page and on the website**

project and give a brief description of your project. Also, at the meeting we will hold our monthly 50/50 raffle.

We hope you will join us at the meeting! See you on **Tuesday, March 6<sup>th</sup> at the Belgium Cold Springs Fire Station 1 Community Room.**

[Why Tuesday? We can't meet on Wednesdays thru May due to the EMT refresher class at the firehouse.]

Remember, **Don Vanderveer**, our Mr. Hospitality, will welcome any snacks you are willing to bring and any help you are willing to give! ✨

### Northeastern Woodworker's Association

**26<sup>th</sup> Woodworker's Showcase**

**March 24 & 25 – 10am-5pm**

**Saratoga Springs City Center**

**522 Broadway**

**Saratoga Springs, NY**

**An Exposition / A Vendor Show  
Free Seminars**

## PRESIDENT'S CORNER

As I write this column, the sun is setting on a 56° day – in February! We are having that *January* thaw in mid-February as usual. I caught some rays yesterday afternoon sitting in the door of the garage so as to be away from the breeze. The weather forecasters say we are not done with winter, with a possible ugly storm again later this week. The current forecast for Tuesday is a wintery mix which means we shouldn't have issues with our Tuesday meeting.

We continue to have great meetings in 2018 and I am sure that John Meloling's talk on photographing your projects this month will be good as well. I hope you will join us. Speaking of meetings, is there a topic you want covered? Please tell us. The contact information for the officers and Board are listed in the box at the bottom right of this page. Please take time to contact them either at a meeting or otherwise about your interests.

We are starting to gear up for sales of ornaments and other items to raise money for the Ronald McDonald House. Our first sale of the year will be June 9<sup>th</sup> at Seneca River Day. We need new product, especially scrolled ornaments. Please consider donating.

Also on tap this year is a member exhibition at the Baldwinsville Library during the month of July. Interested in participating? More details are on page 8 of this newsletter. All pieces must remain on display for the entire month of July and be available no later than June 27<sup>th</sup>. Sign-up at the March meeting!

What's happening at 8 Acres? Charlie's responding to fire calls as usual. It's quieter than January (thank goodness) but he is also starting to attend fires as an apprentice fire investigator. Of course he is also turning regularly with new bowls and such appearing regularly on the dining room table (the first drop point). I've been down in the shop making a few things including earrings and a plaque that will be a donation for the Kara Fund. I will also donate a necklace that will be beaded. I am also working on some new ideas that will combine beading and scrolling that I will bring to a meeting at some point.

Well, it is time to close but .... *Keep on creating!*

Barbara ✂

## NEW MEMBERS & VISITORS

It's membership renewal time! Our database shows 107 people renewed for 2018 with 57 left to go. Where is yours? Please process your renewal in March. Unfortunately, if you don't have your renewal completed by March 31<sup>st</sup>, you are considered in arrears. We know that some are on your *winter* vacation (and at least one on a six month vacation), but please take the time to process your renewal by mail.

So far we have six new members for 2018. Welcome to **Jim Antwine** of Baldwinsville, **Steve Garty** of Syracuse, **Suzanne Keller** of Mendon (wife of Board member **Bill**),

**Jim & Shelly Kent** of Cicero, and **Rand Manzella** of Tully. We had two registered visitors at the February meeting: **Catherine Harrington** of Syracuse and former member **Michael Insalaco** of Syracuse. We hope you will consider joining us!

If you know of someone who is interested in the club, please notify Barbara. ✂

## MEMBERSHIP INFORMATION

SWWA's membership runs the calendar year with renewals due each year by March 15<sup>th</sup>. The cost to renew your membership remains the same with single renewals at \$25 and a couples renewals at \$35. For new members, we add \$9 to pay for badges.

It is time to start processing renewals. As has been the habit in past years, Mark Baumes, our treasurer, will have pre-completed membership forms at the January meeting. You may retrieve your form and pay Mark at the meeting or mail it to the address on the form.

Whenever possible, newsletters are sent by email which means it arrives quicker, in color, and at a lower cost to the club. We do still send the newsletter by mail if members do not have an email address and have newsletters available at most meetings.

Our membership application is also available at most meetings and the website – [www.sawdustwoodchips.org](http://www.sawdustwoodchips.org). We ask that when completing the membership form you print clearly so our database is accurate. At the bottom is a liability statement that we ask that you sign on a yearly basis to financially protect the SWWA membership. When joining or renewing, it is not enough just to send a check; we need the completed and signed form as well. Send all forms to our treasurer: Mark Baumes, 169 Edgehill Road, Syracuse, NY 13224. Please, do not send cash. ✂

## OFFICERS & BOARD OF DIRECTORS – 2018

President:	<a href="#">Barbara Raymond-LaPrease</a>	638-1217
Vice President:	<a href="#">Charlie LaPrease</a>	315-638-1217

## OUR FEBRUARY 2018 MEETING

On Tuesday, February 6<sup>th</sup>, members and guests of the Sawdust & Woodchips Woodworking Association gathered at their meeting location, the Belgium Cold Springs Fire Department's Community Room for their monthly meeting. The featured topic for the evening was framing. **Roland Pearson**, our framing expert and Board member, gave attendees a great review of the process for making a frame. First and foremost, when creating

framing stock, use wide and long pieces of material. No matter how good you are, inevitably you will make a mistake and need the extra length. And, by using wide stock, you can decorate both sides and then split it in half on the table saw. To create the frame profile, Roland

uses a D handle router freehand with his chosen bit but encourages those with router tables to use the table to insure accurate and consistent cutting of the profile. Many different router bits can be used to create the profile. In addition to standard size bits, Roland has a mini set he purchased a few years ago. Unfortunately, sets like his with 1/4" shanks are in limited supply unless you want to pay \$100 and up. You can purchase individual bits at Rockler. Roland noted that when he mats a picture, he

always makes the mat on the bottom of the picture about 1/2" larger. He

uses a mat cutter that puts a bevel on the front side of the mat. Similar cutters could be found at The Art Store on Erie Blvd in Syracuse. For cutting the frame components, Roland prefers his guillotine style cutter as he gets a better cut than with the miter saw. If all you have is a miter saw, the suggestion is to build yourself a shooting board for cleanup after the miter cut. For clamping, a web/band clamp works.

In your layering of your picture, some people use plexiglass for the front layer and some use regular glass.

**Tony Baleno** showed us how he cuts glass using a pistol grip glass cutter. [If you don't have glass, you can purchase at Lowes or Home Depot or contact one

**Potential Glass Suppliers:**

- Liverpool Mirror & Glass, 900 Old Liverpool Rd
- B&R Glass Co, 6078 East Taft Rd
- Flower City Glass, 222 Teall Ave
- Martin's Glass & Mirror, 108 Herbst Ave

of the suppliers in the box.]

Prior to the presentation, we had our *Show & Tell* session with 16 participants.

**Pete Breese** showed two embroidered pictures that he framed in pine for his wife. For the backer, he used 1/8" hardboard. Peter's wife machine embroiders the pictures for their craft business.

A spalted beech and maple hand planed table was shown by **Kevin Rawlings**. He built the table using mortise and tenon joinery for his daughter, but she wants it darker. He tried black shellac for part of the finish to darken parts but alas she still does not want it.

The [Fix This Build That](#) website contains many different projects. **Dan Wiemers** showed a flip top tool stand he created using plans from this website. He will use it to hold the planer he received for Christmas and a sander. Dan used maple plywood and locking casters to build the stand.

Our "unusual project" guy, **Mitch Wilson**, presented two projects, one fitting the unusual label. This time, Mitch showed a hat and glove drying rack that was built to mount over the radiator. He used walnut purchased at the 2017 auction, sliding dovetail joinery, old brown glue, and Tru-Oil to create the rack. Mitch's second project was an end grain cutting board for his wife. Mitch used scraps of sapele, cherry, walnut, and maple to create the board and again used old brown glue for assembly. The glue saved the board after the planer *attacked* it. His finish is Bush oil and beeswax applied with a [polissoir](#).

Since completing Christmas presents, **Bob Casey** has been cleaning and updating his shop with new components. His latest work involves organizing his turning area. He built the lathe tool holder using scrap and PVC piping.

maple and oak to create a random end grain cutting board. The finish is mineral oil after he added a decorative routed edge and feet.

The Popular Woodworking website *I Can Do That* inspired **Bruce Swift** to create a catapult/trebuchet of mainly cherry. Bruce talked about "after construction" issues and ammo while

demonstrating how his project operated.

**Jim Kent**, one of our newer members, showed a large yellow birch vase he is working on. Since the wood was wet, he is taking his time to turn the vase. He will bring it back in when it is finished.

An old plant stand provided the inspiration for **Tom Lawlor's** ash plant stand. Tom noted that he dyed the wood before finishing the stand with Waterlox.

**Bill Keller** showed a set of cherry canoe paddles and a cherry kayak

paddle. He noted that he cut the general form on a bandsaw and final shaped by hand. Last year, Bill and his wife, Suzanne, moved from New Hampshire to

Mendon. A member of SWWA while in New Hampshire, he now serves on the Board.

Sometimes the simplest and quickest project means the most. **Don Nelson** showed a curly maple grandchildren measuring stick. After he made one, he is now being asked for many more. The KISS principle at its best!

Recently, **Jim Sanson** took down a pignut tree. Pignut is a member of the hickory family but unlike hickory stinks when cut. He made the case shown from some of the pignut expecting to incorporate a specific clock unit into the case. Unfortunately, the clock unit

is not available. Whoops! The lesson? Have innerds before building case!

**Jim Ruddock's** kids gave him a book on bandsaw boxes. Using the book, he made his first box using cherry, adding a black velvet lining, and a finish of mineral oil and beeswax.

The neighbor took down a messy oak tree so **John Meloling** acquired a few pieces last fall. He rough turned a few bowls from the pieces in November. At the meeting he showed three recently completed pieces, 2 oak bowls and a cherry bowl. (Photos, page 5)

**Steve Grossman's** daughter asked him to help with her kitchen remodel. His part of the project is building the drawers and doors. He

purchased a Freud coping set to facilitate it. For the meeting, he showed his setup, spoke of his challenges, and showed some practice pieces. Can't wait to see photos of the final kitchen.

The last presenter was **Charlie LaPrease**. Charlie showed a large walnut bowl produced from a piece of crotch walnut. He'd not yet finished it so the tenon remained on the bottom.

Great *Show & Tell* folks! Keep it up!

## MEETING NIGHTS – JAN THRU MAY 2018

Our meeting nights from Jan to May will change due to an EMT refresher class being held in the Community Room at the Fire Department. The class will be held on Wednesdays thru May. Therefore, all SWWA meetings **must move**. **The meetings will be on Tuesdays.** We know the meeting night changes cause

some issues for people but it is a necessary change. So, plan ahead:

- ✓ **Tuesday, March 6** – Photographing Your Projects with John
- ✓ **Tuesday, April 3** – Canoe Building with Federico
- ✓ **Tuesday, May 1** – Swap Meet & Wood Auction

The remaining *Scrolling Interest Group* meetings for 2018 are:

Tuesday, April 17<sup>th</sup>

Wednesday, September 19<sup>th</sup>

Wednesday, June 20<sup>th</sup>

Wednesday, November 14<sup>th</sup>

## WEATHER CANCELLATION POLICY

It is very unusual that SWWA meetings are cancelled due to weather. However, should the weather be questionable, a decision to adjust the date will be made by noon on the day of the meeting. **All notifications will be made via email.** Phone calls will be made only to the few who receive their newsletter via the USPS. We will try to place notifications on local TV media also. If there is a question, please call Barbara, Charlie, or a member of the Board (page 2).

## ROAD TRIP OPPORTUNITY:

**The Woodworking Show – New Jersey** – Meadowlands Exposition Center, 355 Plaza Drive, Secaucus, NJ 07094. The dates are *Friday, March 2 thru Sunday, March 4*. The hours are *Friday, noon to 6pm, Saturday, 10am to 6pm, and Sunday, 10am to 3pm*. Admission is \$14 at the door but \$12 if purchased online. The ticket is valid for all 3 days. There are not only vendors from whom you can purchase woodworking "stuff" but also seminars throughout the show. Some vendors have special deals and coupons. Check out the website [here](#).

## SCROLLING INTEREST GROUP MEETING

**Meeting Night:** Third Wednesday of Feb / Apr. / June / Sep. / Nov. at 6:30 pm

**Next Meeting:** Monday, April 17<sup>th</sup> at the *Belgium Cold Springs Station 1*

**Topic:** TBD

**Challenge:** Your "Slot" Projects

**Also:** Show & Tell & Woodworking Questions Answered

The Scrolling Interest Group met on Monday, February 19<sup>th</sup>. Although we had a small group, we had a great group of *Show & Tell* projects and discussion on cutting slotted projects. All group members on the email list received a follow-up email with information from the meeting. If you did not get, please contact Barbara. As we started, Bob Henry spoke about the new blade clamps from Pegas that easily upgrade the blade holders on the Excalibur, Seyco, King, Jet, and Dewalt scroll saws. He had a sample and there was much discussion about the value of these clamps. They can be ordered from at least 2 companies – [QTE North America](#) and [Bear Woods](#).

As for *Show & Tell*, **Ron Bacht** showed four pieces – a 3D slotted mahogany gazebo, a maple hot rod, a tiny frog, and a cherry base that can be used for candles or bottles of mementos like shells as shown. **Tony Baleno** showed a solid surface *I love you* desk plaque, rosewood

earrings, and cherry & walnut race car which is as yet unfinished. All were [Steve Good](#) patterns. **Peter Breeze** showed four dog ornaments of Baltic Birch using patterns from [Scroller](#). Thirty different patterns are provided in this downloadable pattern set. When cutting, Peter stack cut four at a time. Peter also showed a nearly finished clock that will be an anniversary gift. **Barbara** showed a mahogany koala plaque that will be donated to [Kara's Fund](#) for the silent auction at their annual dinner in April. She also showed a couple of ornaments, several pairs of earring (as yet unassembled), and photos of toys created and sent to his great-nephew and great-niece for Christmas.

Looking forward to seeing everyone's slotted projects at the April 17<sup>th</sup> meeting! ✂

As many of you know our annual Shaker Box / Plane Making class is coming up the weekend of March 9-11. The sign up has gone along very successfully this year. We have a lot of new people and many returnees who had a great time in the past; but, we don't have you! I still could find room for you to have a fun weekend for either class: Friday night and Saturday making Shaker Boxes and/or Sunday making woodworking planes. Each class is \$150.00 plus a material fee. I need to know by the meeting Tuesday 3/6 to allow time to get materials ready. Contact me at (315) 263-9228 or [woodnutbob@hotmail.com](mailto:woodnutbob@hotmail.com). Or, see me in my usual seat at the meeting Tuesday.

## SHAKER BOX & PLANE MAKING CLASSES MARCH 9-11, 2018 AT LAKESHORE HARDWOODS

For the 24<sup>th</sup> year there will be a class in Upstate NY on making Shaker Oval boxes and plane making. Beginners & Advanced Shaker Box Classes run simultaneously on Friday from 6pm to 10pm and on Saturday from 8:30 am to 5pm. The Plane Making Class runs Sunday from 8:00am to 4pm. All materials are provided for each class at a nominal cost.

Participants in the Beginners Shaker Box class produce 5 complete Shaker boxes, sizes 0-4. Advanced Shaker Box Class participants pick their projects from many different options including the oval tray, music box, handle basket, jewelry box, presentation box, or any of the sizes of legacy Shaker boxes. The options are many. Plane Making Class participants can make a BLOCK PLANE, CHISEL PLANE, SCRUB PLANE or SHOULDER PLANE.

The instructor travels from Michigan to teach the class. The cost is \$150 per class plus materials (\$30-\$40 estimated).

To Register – Contact Bob Casey at 315-263-9228, via email at [woodnutbob@hotmail.com](mailto:woodnutbob@hotmail.com), or signup at the January meeting. Payments are due March 1<sup>st</sup> but earlier is always acceptable.

If you have questions or unique needs, please talk to Bob.

*Thank you for supporting these classes for so many years. ✂*

## SORT OF ON THE ROAD:

*Bob Casey, our roving reporter sends this report.*

Well where has you're *On the Road* correspondent been since he got back from the Springfield Woodworking show? I've been in my usual place where I hide from WINTER—my cellar—or as I call it MY SHOP. Generally, I spend the winter cleaning the shop, but because of diligence, the cleaning did not take that long. I've had several shop projects on the back burner for years, so this was the year to create those. I wanted a wall behind my lathe area, a cupboard beside my table saw, and a lathe tool rack (see *Show & Tell*). They are all now done (see photos). I also needed to calibrate my Inkra table saw fence and completed that. I have one more project in the works, and that will be my *Show & Tell* for the March club meeting. My projects are not fine furniture they are *SHOP* furniture, put together as cheaply as

possible with plywood, pegboard, and 2-by material from cull

bins at work.

I also got the idea I want more space. I started walking around and saw either duplicate tools or things that I have not used in years. What to do? Save them? Keep them for the club auction in May? No, I decided they all belong on E-bay. I've sold unneeded tools quite successfully on E-bay for over a month now. This included the stock fence for my table saw which I haven't used after I bought the Inkra table saw fence years ago. Toss or sell? Sold for nearly \$100 to someone in Florida! I've made over \$400 by selling unwanted items around the shop. Now I have cash & more room to buy more things.

So, everybody stop sitting around watching the white stuff fall from the sky or watching 800+ TV programs that don't amount to anything, have some fun in the shop!

Bye for now. Your roving reporter, *Bob*

## GIRL SCOUT PINEWOOD DERBY – SATURDAY, FEBRUARY 10<sup>TH</sup>

Many thanks to the group who helped out with the consolidated Baldwinsville Girl Scouts annual pinewood derby! This is the 3<sup>rd</sup> year for this event and each year a great group of members have helped with this event held at the Methodist Church in Baldwinsville. We handled check-in, judging, pit management, starting, and photography for the event. Thanks to **Susan Allen, Bob Casey, Jim Kent, Shelly Kent, Barbara LaPrease, Charlie LaPrease, John Meloling, Amy North, Doug North,** and **Sue Vanderveer!** The girls had a great time and with our help, the parents could be with the girls rather than worrying about what we do! And, we had fun also!

## CLUB DISPLAY AT BALDWINSVILLE LIBRARY – JULY 2018

The club has secured the display space at the Baldwinsville Library for the month of July in order to showcase member's projects. The library has pedestals with plexiglass covers, some freestanding panels, and walls on which pieces can be displayed. While you may not place a price on your pieces in the exhibit, we will give the library staff a list of the pieces with contact information for the artists and pricing that is provided to patrons. All pieces for display must be available by Wednesday, June 27<sup>th</sup> so the tags and listing can be created. Installation will likely occur on either Saturday, June 30<sup>th</sup> or Sunday, July 1<sup>st</sup>. All pieces need to stay in the exhibit thru July 31<sup>st</sup>. A sign-up list will be started at the March meeting. Anyone interested in participating with their projects should sign-up ASAP.

## ROCHESTER WOODWORKER'S 2018 SHOWCASE EVENT

The Rochester Woodworkers Society (RWS) announces its 2018 Member Showcase scheduled for Saturday April 21, 2018. The event will be located in the Eisenhart Auditorium at the Rochester Museum and Science Center, 657 East Avenue, Rochester, NY 14607; and is open to the public from 10:00 AM to 4:00 PM. As with past RWS Member Showcase events, this year's Showcase will feature work by guild members across nine (9) different categories. Visitors will also have the opportunity to observe demonstrations by members representing special interest groups within the guild. Admission is \$5.00 per person, and minors aged 18 and younger are FREE.

## FORMER MEMBER TOUCHES BASE...

Recently, your editor received an email from **Mike Shuron**, a former member who relocated to Kentucky a couple years ago. Every so often you hear of a member creating something from wood he got from Mike before he moved. Mike is staying busy as *Shurwood Forest Custom Creations*. Ever community minded, Mike is busy creating 500 cars, trucks, etc. that will be donated to various organizations there in Union, KY. In addition to purchased supplies, Mike is lucky that there is some building going on nearby to supply wood. The framing crews are saving cutoffs and calling him when they have a load for him or *mistakes* delivered by the lumber yard. Mike's grandson, Alex, helps us out at the Fair. Hopefully, Mike will make it up this year for the Fair!

## COMMUNITY BULLETIN BOARD

### FOR SALE: Rockwell Model 37-290

**Table Saw** - 10", 1960 vintage, Attached 4" jointer. 1 HP, 120 V motor. Fence and miter included. Asking \$250. Pictures available. Contact Jeff Conner,

315-635-7039 or [jconner9@twcny.rr.com](mailto:jconner9@twcny.rr.com)

**FOR SALE: Jet 1442 Lathe** with Nova chuck, drive center, live center, 2 tool rests (6" and 12"), homemade spindle steady, homemade hollowing rig, ballast box with 150 pounds of sand, and a storage tool box and more. \$700. Contact Robert Love at (909) 782 8225 or (315) 297-4224 or [rllove@sbcglobal.net](mailto:rllove@sbcglobal.net)

**FOR SALE: Parks industrial Planer**, 12" Direct drive off the motor, cast iron bed, on mobile base. \$200; **Delta / Rockwell Radial Arm Saw** 10" blade. \$100; **Sears wood/coal furnace**, \$200; **Grizzly 6" Jointer Model G1182** with mobile base 1hp, 110v/220v, 13amp, 2 sets of knives, 4" dust port. \$350. Contact Kevin Rawlings at (315) 396-9763 or [hostaguy@gmail.com](mailto:hostaguy@gmail.com)

**FOR SALE: Grizzly 6" Jointer Model G1182 with mobile base** 1hp, 110v/220v, 13amp, 2 sets of knives, 4" dust port. \$350. Contact Kevin Rawlings at 315-396-9763 or [hostaguy@gmail.com](mailto:hostaguy@gmail.com)

**FOR SALE: Hawk Model 226VS 26" Scroll Saw** with Foot Switch and Magnifying Light. \$1200.00 new & used very little. Make me an offer. Contact Mel Taber, 487-7855 or [mtaber3@verizon.net](mailto:mtaber3@verizon.net)

**FOR SALE: Craftsman 8 inch Bench Grinder** with 5/8 arbor, 1hp motor. \$70. Contact Bob Silberman at (607) 257-0939 or [rsilbermantwcny.rr.com](mailto:rsilbermantwcny.rr.com).

**FOR SALE: Used bench vises.** Good quality, commercial grade. Price \$50 to \$75 each. For more info, email Bud Millis at [emillis@twcny.rr.com](mailto:emillis@twcny.rr.com) or call (315) 297-7525.

**FOR SALE: LUMBER – Kiln & Air Dried Hardwoods (PA cherry, chestnut, maple, white oak, butternut, etc.)** and some softwoods available. Also Black Walnut and English Walnut slabs available. For more details, email Bud Millis at [emillis@twcny.rr.com](mailto:emillis@twcny.rr.com) or call (315) 297-7525.

**FOR SALE: Dry and fresh cut hardwoods and pine.** Call for pricing. Contact John Anderson (315) 408-6030 or [mscoolcows@aol.com](mailto:mscoolcows@aol.com)

**Club Deal – Woodline** – 10% discount off advertised prices for all products. Call (800) 472-6950 to order and identify yourself as an SWWA member. Check [www.woodline.com](http://www.woodline.com) for product info. Password - **sawdust**

**Club Deal – Klingspor** – 10% discount off all non-powered merchandise in catalog. Call (800) 228-0000 and identify yourself as an SWWA member. Check [www.woodworkingshop.com](http://www.woodworkingshop.com) for product info.

**Memphis Hardwood Lumber** – Situated on the bank of the Old Erie Canal, over 40 species of domestic and exotic hardwoods. See [www.memphishardwoodlumber.com](http://www.memphishardwoodlumber.com) for more information. Custom engraving is also available. They are located at **6535 Church St, Memphis, NY** and open M-F 8am–4pm. Call for Sat. appointments. (315)689-3949

**Lakeshore Hardwoods** – Specializing in KILN DRIED hardwood for Cabinet Makers, Furniture Makers, Woodworkers, and Hobbyists. Many thicknesses and lengths available including thin stock and turning squares. Visit [www.lakeshorehardwoods.com](http://www.lakeshorehardwoods.com) for more information. Call Brian Leary at (315) 298-6407 for the **Main Store**, 30 minutes north, **just south of Pulaski at 266 Manwaring Road**. Open Mon-Thurs 8am-5pm, Fri 8am-4pm, & Sat 9am-2pm. Brian has a **Satellite Store** at 191 West Main St (Route 96) in Victor, NY (585) 869-5118. Open Tues-Fri 9am-5pm & Sat 9am-3pm.

**Snacks** – The club provides coffee and purchased snacks for meetings. **Don Vanderveer leads the hospitality committee but he can always need help! Please consider stepping up!** Your homemade goodies are always welcome but we welcome every food donation! For those of you who have generously brought food during the past year, we thank you. ✨

### **Directions from Syracuse & Suburbs to *Station One of Belgium Cold Springs Fire Dept.***

Take 690 West to John Glen Blvd. Take John Glen to RT 370/Cold Springs Road. Make a left at the traffic light. Travel 1 mile to River Rd ["Cold Springs"], turn right on River. Travel 2 miles to the firehouse. Park in the lot on the north side of the firehouse or on the streets (one side only). **DO NOT PARK IN FRONT OF THE FIREHOUSE DOORS.**

Alternate route – Take Rt 370 through Liverpool and when you cross over John Glenn Blvd, use directions above.

The website has a map and more directions. Check it out.

***See you there!***
