## Getting to Belgium Cold Springs Station 1 Community Room 7920 River Road, Baldwinsville

**General Instructions:** Station 1 is north of John Glenn Blvd., east of Route 370 and south of Route 31 at the intersection of River Road, Hicks Road and Patchett Road. Everyone comes a different direction. Below are some directions and a map. **DO NOT BLOCK STATION DOORS WHEN PARKING!**

**From John Glenn Blvd.,** take Route 370 north (there is a traffic light at the corner). Take your first right at Cold Springs (past the Elks). This will be River Road. Drive 2 miles and firehouse will be on right. Park on the north side in the lot away from the overhead doors. If you miss the right onto River Road, drive 2.2 miles north to Hicks Road. Take Hicks to the 5 way intersection, turn right and then left into the firehouse parking lot.

**From Baldwinsville** there are 2 ways: (1) Drive 2.2 miles from intersection with Route 370 [near Mavis Tire/Cole Muffler] out of Baldwinsville on Route 31 East. This takes you to the 3<sup>rd</sup> traffic light past Cole Muffler. Take the right onto River just before the Belgium Bridge. Drive 1.5 miles south on River Road to the 5 way intersection. Bear left following River Road and turn left into the firehouse parking lot. (2) Or, take Route 370 out of Baldwinsville [at the Y before mavis Tire/Cole Muffler], drive 1.6 miles south. Take the left at Collington Point Dr [its near the top of a hill]. Then turn right onto Patchett Road before going into housing development. Drive one mile to the 5 way intersection, turn right onto River, and then left into the firehouse parking lot.
